Overview

3.6% 

Unemployment rate edged up

Both the unemployment rate, at 3.6 percent, and the number of unemployed persons, at 5.9 million edged up in February. These measures have shown little net movement since early 2022.

1.1M 

Long-term unemployed—unchanged

The number of long-term unemployed (those jobless for 27 weeks or more), at 1.1 million, changed little in February and accounted for 17.6 percent of the total unemployed.

62.5% 

Labor force participation—little changed

In February, the labor force participation rate was little changed at 62.5 percent, and the employment-population ratio held at 60.2 percent. These measures have shown little net change since early 2022 and remain below their pre-pandemic February 2020 levels (63.3 percent and 61.1 percent, respectively).
